This Compendium contains 19 papers of Mr. Lin and was published by the Taiwan Forestry Research Institute (TFRI) in 1996. The publication (partially written in English) not only proves Prof. Lin's great contribution to bamboo classification, cultivation, and utilization in the world, but also shows the TFRI's respect and gratitude for him.

林維治紀念竹園

Mr. Wei-Chih Lin is a former researcher of this Research Center, he had been appointed as the Engineer concurrently the Branch Director of the Liouguei Branch, he had dedicated his whole life in studying forest science, in particular the classification, cultured, cultivate, and use of bamboo species, and had obtained much satisfactions and achievements from this study, with the two books namely "Studies of Morphology of Bamboo Flowers" and "The Classification of Subfamily Bambusoideae in Taiwan" he had written, earned him an International Scholar position in Classifying Bamboo Species. In memory of Mr. Wei-Chih Lin's remarkable contributions to the study of Bamboo species, and to provide this Research Center as an example for planning, we have collected and planted the discovered new species, named and the confirmed classification of bamboo species that Mr. Lin had announced in our Garden, to commemorate him.

林唯治先生為本所前研究員，曾在六龜分所簡任技正兼分所長，畢生致力於林業科學研究，尤其對竹類之分類、引種、繁殖、栽培和利用，更具研究心得和成就，以「竹花形態之研究」及「台灣竹亞科植物之分類」等著作，奠定了在竹類分類上之國際學術地位，為緬懷林維治先生對竹類研究的卓越供獻，供為本所策劃將來之借鏡，特將林先生曾發表之竹類新品種發現、命名及分類地位確認的竹種蒐集栽種於本園區，以茲紀念。
